

RCCN Limited

Environmental policy Statement

RCCN is an environmentally responsible organisation and as such we acknowledge the potential impact that our specialist cleaning and facilities management operations may have on the environment.

This policy has been endorsed by the Managing Director who gives full support to its implementation. Senior management, in co-ordination with the Operations Director, is responsible for ensuring that it is communicated, understood, implemented and maintained at all levels within the organisation.

We are committed to the prevention of pollution and continual improvement of our environmental performance. This has been facilitated through the setting of environmental objectives based on our significant environmental aspects. These objectives will be documented, allocated targets and programmes and periodically monitored and reviewed. The results of which are communicated throughout the organisation and to our clients, suppliers and contractors as appropriate.

As an organisation, we are committed to ensuring that we: -

- Comply with all environmental legislation, using codes of practice and guidance produced by regulatory bodies and (cleaning industry body) to assist where appropriate.
- Provide all employees with the necessary resources, equipment, information, instruction and training to fulfill the requirements of this policy, commensurate with their role.
- Work towards and subsequently maintain an informal environmental management system based on legal requirements and in accordance with other health & safety and quality procedures.
- Strive to integrate environmental best practice into our business operations.
- Prevent pollution to the environment by ensuring that we manage waste to air, land and water.
- Minimise waste to landfill by reducing our waste generation and by segregating and recycling waste where economically and operationally feasible.
- Co-ordinate deliveries and business mileage so as to maximise fuel efficiency.
- Use energy, water, materials and other natural resources as efficiently as possible, giving particular regard to the long term sustainability of consumable items.
- Ensure that the environment is considered in the procurement of goods and services.
- Give appropriate consideration for the environment in the goods and services we provide to customers.

This policy will be communicated to all employees and organisations working for or on our behalf. Employees and other organisations working for or on our behalf are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others, or the environment.

This policy will be periodically reviewed by the Managing Director and other relevant members of the management staff, including the Operations Director, and will be amended and re-issued where deemed necessary.

This policy statement is displayed on-site and is publicly available as may be reasonably requested by any interested party.

Mark Kiaie
